

PRECISE LEAK DETECTION

Detect-O-leak

flexible nozzle to assure exact and direct fluid

Detect-O-leak™ is a highly professional gas leak detection fluid. Its design incorporates an extra-long flexible nozzle to assure exact and direct fluid application where required. Detect-O-leak™ contains non aggressive complex detergent formulation, making it applicable to all surface types including soft metal and plastics. It is biodegradable and noncorrosive to all types of pipes and tubes

DETECT-O-LEAK SPECIFICATIONS

Detect-O-Leak™ Specifications
Non viscous liquid
Temperature range: 5°C – 80°C
pH: 6-7

DIRECTIONS FOR USE

Apply liquid on the tested area, suspect areas should be completely covered with the liquid. Leaks will be quickly indicated by the formation of froth. Once testing is completed Detect-O-leak™ fluid can be easily wiped away with a damp cloth or rinsed off with water leaving the area clean and uncontaminated.

ADVANTAGES

High quality formula ensures a fast, effective and reliable detection of gas leaks. Applicable for all surface types including soft metal and plastics.

Features an extra-long flexible nozzle - assures direct fluid application even in the most hard to reach areas.

Formulated with Ecological and Environmental concern - biodegradable product, safe to use.

Applied area can be **easily wiped** or rinsed off.

**Fast,
Effective
and Reliable
detection of
gas leaks.**
